

HIS NOMINATION DUE TO EFFORTS OF HIS DAUGHTER

Mrs. P. B. Moses, When Her Father Was Sick, Solicited Votes By Letter and By Personal Persuasion in His Behalf.

(Special to The Times-Dispatch.)
CHATHAM, VA., October 14.—During the primary campaign, Hon. J. B. Taylor, one of the successful candidates for nomination for the House of Delegates, was much of the time sick and having formidable opponents his chances were not bright. His daughter, Mrs. P. B. Moses, at once set to work to win the honor for her father, and possessing that spirit of tenacity of purpose, ceased not to write letters and seek in person the suffrages of her county voters, which resulted in a handsome majority for her father over the next nearest candidate.

On the last public day of the county court, previous to the primary, Mrs. Moses, accompanied by her husband, spent the day in Chatham, asking the voters to cast their ballots for her father in the primary. Mrs. Moses is a young woman of very striking personality and not quickly making a favorable impression on all with whom she may come in contact. Her husband for many years was engaged in the flouring mill business at this place and Glasgow, Va., but last year disposed of his interest at a handsome price.

Mrs. Moses returned from the Richmond Horse Show on Friday.

CATHOLIC PEDAGOGICAL COLLEGE FOR WOMEN

A Most Interesting Innovation in the Educational Scheme.

(Special to The Times-Dispatch.)
NEW YORK, Oct. 14.—The first Roman Catholic Pedagogical college for women will be open in New York on Monday. This will be one of the most interesting innovations in the Roman Catholic educational scheme.

Dr. William H. Maxwell, superintendent of the public schools of the Borough of Manhattan, has signed the charter which makes a student who follows the ninety hours' course prescribed by the new college eligible to the city examination for a three years' license to teach in the New York schools outside New York city, provided the student has also the degree of Bachelor of Arts.

The Board of Regents of New York State, who are impressed with the scope and solidity of the syllabus of the new institution, that it gave its unqualified approval.

Designed chiefly for Catholic teachers in the public schools of New York, all women, irrespective of creed, will be welcomed. It is estimated that there are more than a thousand Catholic women teaching in public schools here. The course will cover history and principles of education, methods, logic, ethics and psychology.

It is the purpose of the college, while training students to meet the requirements of State and municipal examining boards, to ground them in the Catholic interpretation of the logic and ethics involved in psychology, education, etc. Where Catholic professors are not available, non-Catholic will be engaged.

It will be widely advertised in educational journals. Tuition fees will be necessary in order to pay the fees of the teachers.

Catholic teachers are to-day seeking the best text books wherever they are to be found, not in conflict with the teachings of the church.

Dr. Harris, United States Commissioner of Education, has invited Dr. Morgan M. Sheedy, of Altoona, Pa., to prepare a report of the Roman Catholic parochial schools and colleges to be incorporated with that of the government, the first instance of the kind in the history of American education.

Dr. Bruce R. Payne, professor of secondary education at the University of Virginia, and a noted educator, is in this city to look up certain educational statistics from the Department of Education.

Dr. Payne is a young man, having had his first position of prominence at the College of William and Mary, where he occupied the chair of pedagogy, and is a man of rare attainments in his special field. As a speaker before the various educational associations of the country and the institutions, his services are often the objects of requests.

He is scheduled to deliver the alumni address before the students of Trinity College, North Carolina, next June, and on December 28th he is to speak in New Orleans before the American Association for the Advancement of Science.

Dr. Wallace Buttrick, secretary of the General Education Board of New York city, will hold a conference of high school specialists in Charlottesville on Monday.

FRANCE IS ANGRY BECAUSE OF PROCRASTINATION

(By Associated Press.)
PARIS, October 14.—Official quarters here show growing impatience at President Castro's failure thus far to withdraw his offensive action toward M. Taubman, the French chargé d'affaires at Caracas, but the foreign office has given out a categorical denial of the report that the cruiser Chasseloup-Laubat is preparing to join a naval division going to Venezuela.

SOUTHERN RAILWAY'S DEPOT IS DESTROYED BY FIRE

(By Associated Press.)
BAMBERG, S. C., October 14.—Fire last night destroyed the depot of the Southern Railway with freight sheds and platform, merchandise, cotton and freight cars, and damaging stores nearby. The losses include over two hundred bales of cotton and merchandise valued at \$20,000. The loss is now estimated at \$40,000, which includes damage to stores of H. C. Folk and others.

From Jest to Earnest.

PITTSBURG, October 14.—With a merry smile on her lips, a pretty young woman, about 20 years old, went into the morgue on Sunday night, rolled up the sleeve on her right arm and showed the attendants tattooed on her arm the initials "J. H."

"If I'm ever brought in here you'll know who I am," my name is Julia Hite and my home is at No. 150 Lancaster Street, Marietta, O.," she said.

Late last night a young woman was found dying on Chatham Street. She had swallowed carbolic acid. She was taken to the Homoeopathic Hospital, where she died early this morning.

When the body was taken in the girl was immediately recognized as the one who had visited the morgue on Sunday night. She was afterward fully identified by a relative. She was a clerk in a store here, and had had a quarrel with her father.

Over in Brussels, they talk of naming a new street, Rue Roosevelt. The State Department should promptly investigate, and if it is found that the new street is in the suburbs, cut through fields, and fringed on one side by a land office and on the other by a sign, "Easy Terms—Only twenty minutes to the City Hall," it should do its duty without fear or favor.
